We are located one block south of King Road and one block east of Keele Street at 50 Elizabeth Grove. Rev. Biggar's sermon reflection for Feb. 11 will be It's Jesus Calling: I Need You, and is based on Luke 5:1-11. There will be an opportunity to gather in the parlour following this and subsequent worship services to explore the morning's sermon in depth through dialogue with the minister and with each other.

Also, Feb. 11 is Bring a Friend Day, where children are welcome to invite a friend to church to join in the morning's program.

*"Now February's icy gaze Makes winter master of our days." (Egommet)*

The light cover of snow we have will help protect the garden below ground from this icy gaze.

Those spring bulbs that poked up lured the recent mild weather tend to recede back somewhat and wait for spring's warming days unharmed.

There are plants and seeds in this part of the world that require a period of freezing in order to grow. Peonies are an example, as the original plants from which our standard peonies were developed are native to northern China where winter weather is severe. Trilliums are one of several members of the lily family that need winter's "icy gaze" to survive.

Check growing directions on seed packets. Some seeds should be refrigerated or put into the freezer for a few days to a few weeks before planting.
